

Our Staff...

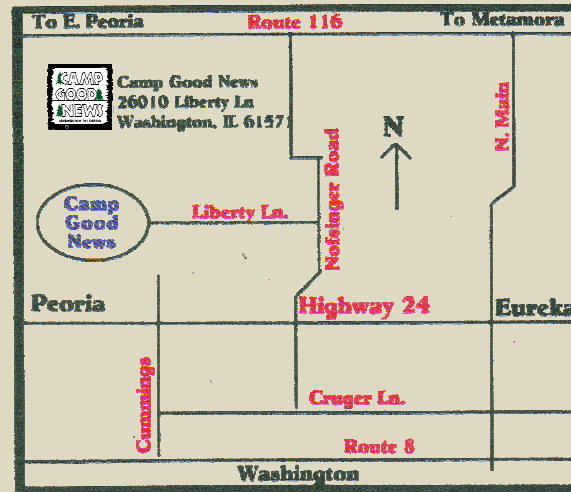

Each volunteer and worker involved in our summer camping program passes extensive training in working with children and our child protection policy. Everyone has a criminal background check completed and multiple references checked, including from their current pastor.

We have two nurses on-site throughout the summer. All of our senior and leadership staff are trained in CPR and First Aid. We also have certified life guards on our team.

We have a very gifted team of people who love working with children and the safety of the kids is our highest priority.

About Camp Good News...

Each Summer, since 1955, Camp Good News has ministered to children from across Illinois, exposing them to the gospel of Jesus Christ, and encouraging them to grow in their relationship with God. Children that do not have a home church are encouraged to find one through our partnerships with local Bible believing churches. God uses this ministry in marvelous ways!

Each day is packed with fun activities that are all integrated with the teaching throughout the day. Whether their cabin is soaring 100 feet in the air across the valley, cooling down while swimming in the pool, or learning to work together on our ropes courses, the campers learn how the spiritual truths impact all areas of life, not just while in the chapel.

Today's campers, more than ever, need to unplug from the non-stop, always plugged in and connected, pace of life. Camp Good News offers this opportunity in a safe, Christ-centered program.

Cabins

Over the past several years, we have updated the cabins campers sleep in during camp. Boys sleep in tree-top cabins, located in the woods. Each cabin is built around a tree and is just like a tree house!

Girls sleep in a 'duplex'. These cabins are located under the shade of trees in the main camp area. The duplexes are complete with indoor plumbing!

At Camp Good News, campers experience a wide variety of fun and adventure-filled activities each day, all designed to reinforce the Bible teaching.

- ZIP LINE (100 FT HIGH AND 385 FT LONG!)
